

Everyone deserves some **quiet time**

Silent Design Series Exhaust Fans

The **Silent Design** Series exhaust fans bring style and elegance to any contemporary bathroom, ensuite and toilet. They can be wall or ceiling mounted and feature an advanced vibration absorbing design to ensure quiet operation.

FANTECH
Intelligent Ventilation

A Silent and Innovative Design

The Silent Design range features quiet operation, high performance air extraction and a sleek contemporary style. Its advanced design and high performance motor ensures rooms are quickly cleared of steam and unpleasant odours. They are available in a range of colours (silver and white are standard) and models with run-on timer and humidistat.

Features

Ideal for modern homes and small commercial applications, the Silent Design fan is suitable for wall and ceiling installations and is available in sizes to suit 100, 125 and 150mm duct diameter. All models include a backdraft damper to prevent air entry and heat leakage when the fan is not running.

Model No. SILDES	Nom. flow rate m ³ /hr	Backdraft Damper	Run-on timer	Humidistat	Finish colour
..CZ3C-W	100, 200, 300	Yes	No	No	White
..CZ3C-S	100, 200, 300	Yes	No	No	Silver
..CRZ3C-W	100, 200, 300	Yes	Yes	No	White
..CRZ3C-S	100, 200, 300	Yes	Yes	No	Silver
..CHZ3C-W	100, 200, 300	Yes	Yes	Yes	White
..CHZ3C-S	100, 200, 300	Yes	Yes	Yes	Silver

.. For complete model add nominal flow rate m³/hr

Run-on timer Option

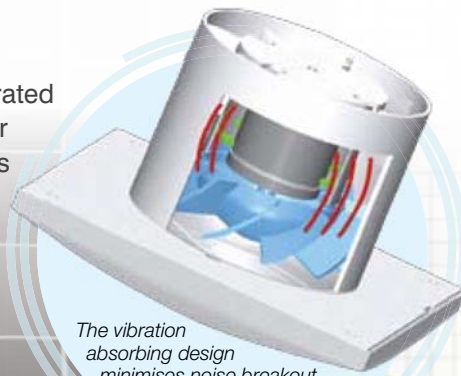

Models with a 1-30 minute adjustable run-on timer are available for applications that require the fan to continue running for a pre-set time. Particularly suitable for bathrooms and ensuites where a shower generates steam, and running the fan for a period after the shower is turned off will help clear the mirror and avoid damage to fittings.

Humidistat Option

To complement the energy efficiency of the Silent Design, models with an in-built humidistat and run-on timer are also available. These fans automatically turn on when steam is detected and turn off when the steam has been cleared.

Rating

The motor is Class B, IP45 rated which ensures it is suited for most room type applications including bathrooms.

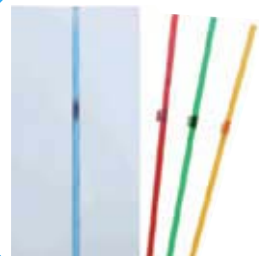

Colour Combinations

The Silent Design is an ultra-quiet, high performance exhaust fan that features a modern and elegant, slimline design.

The fan is available in a white or silver finish as standard and includes an 'operating' light bar that runs along the right side of the fan diffuser and indicates when the fan is running. The light bar comes in four interchangeable colours (blue, red, green and yellow) to match room fittings and décor.

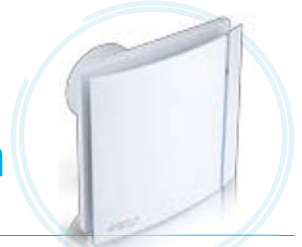

Optional Colours

To further enhance the styling and compliment the colours within the bathroom or ensuite, the Silent Design range also comes in an additional 9 colours as a special order. Please allow 18 weeks delivery from date of order for the additional colours.
