

BACKDRAFT SHUTTERS - TYPE PGL

FEATURES

The PGL backdraft shutter is designed for external mounting. It is made from impact resistant UV-stabilised PVC and includes shutters that open when the fan is running and close when it is off. Available in 100, 125 and 150mm spigot sizes. Suitable with a large range of wall mounted and in-line fans.

SUGGESTED SPECIFICATION

The backdraft shutter shall be of the PGL series as supplied by Fantech and be of the model number shown on the schedule/drawing. It shall be manufactured from injection moulded UV stabilised PVC.

TESTING

Air flow tests based on ISO5801:2007.
